TROUTLINE DECEMBER 2015

NEXT BOARD MEETING: January 23, 2015 at 9:30 a.m., Shaun Mulligan residence, 5925 Zinna Court, Arvada.

MML Website: If you have not had a chance to check out the new website, please do so at mountmassivelakes.org, password Fishing1. The "for sale section is now up and running and also check for updates in the "Managers Corner" section for the latest news and recent activity from MML staff. We would like to thank BOD member Gregg Anderson for all the great work he has done to make this new website successful and current.

MML VEHICLE WINDOW STICKERS: We have new MML stickers for members to place on the window of their vehicles. Please stop by the office or contact staff if you would like one.

DUMPSTERS: Please remember that our dumpsters are for household trash only. Construction materials, furniture, appliances, oil, paint, tires, auto parts, ect, are prohibited and must be hauled to the dump. We have recently found television sets and steel pipes which are unacceptable. The Lake County Landfill is located at 1500 CR 6, Leaville, CO 80461. The hours are 8am to 5 pm, Friday- Tuesday.

ICE FISHING VOLUNTEERS: Around Christmas time we will begin our winter sampling of the lakes. We will be ice fishing each lake to determine the condition of the fish population. If you are interested in helping out please contact Brent or Bryan.

2016 TRIPLOID RAINBOWS: We have moved these fish into their designated ponds for the winter. These triploids are currently 16" and we have 15,353 to stock next summer. During the years of 2010 and 2011 we met our stocking goals and fish size. Those fish were 15" going into the winter. We are on pace and may exceed our rainbow catchable stocking size next summer.

2017 KAMLOOPS RAINBOWS: These fish have also been moved into their designated ponds for winter. They are healthy and feeding well. They are currently 10" and we have 21,748 fish.

2015 BROWN TROUT: Annual fall spawning took place from mid to late September this year. We spawned three male and three female brown trout for a total of 6,101 eggs.

Our Brown Trout have an 80% survival from egg to stocking size (3") in recent years here at MML. We will stock these fish next summer when they reach 3" in length.

2016 TIGER TROUT: Our annual Tiger Trout egg take took place mid September. We spawned female Brown Trout with male Brook Trout for a total of 13,202 eggs. So far, we have had 41% survival. These fish are in the trough and will begin feeding soon. We will stock these fish next summer at 3" in lakes 15, 2, 26, and 21.

2016/2017 CUTBOWS: The cutbows are doing well. They are in Hatchery pond and Rainbow pond for the winter. They are currently 14" and we have 5,072 fish. We will stock half of these next summer along with the catchable rainbows. We will use the rest of the cutbows to hold over next fall to restart our super catchable program in 2017.

WATER FLOWS: With a couple early snow storms this fall and fairly warm temperatures, our water flows have been stable and we are able to run water throughout the entire system. We should have no lakes dry up this winter.

STAFF CONTACT NUMBERS: If you need to get in contact with the staff, please use the following numbers.

Brent: 719-293-5441

Greg: 719-293-5427

Bryan: 719-293-5423

WELCOME NEW MEMBERS: Please welcome new member Jim Keller who purchased cabin 137 from Jeanne Allen.

NEED COPIES OF MT. MASSIVE LAKES BY-LAWS, RULES AND REGULATIONS, LAND USE APPLICATIONS AND RULES AND REGULATIONS OR MAPS OF THE CLUB? They are available to the membership and can either be downloaded from the website or are available in plastic file holders mounted on the wall inside the Clubhouse, just to the right as you enter the Clubhouse door. If you elect to acquire them at the Clubhouse, limit one per member, please!

LAND USE PERMIT APPLICATIONS: Remember, if you are planning a construction project at your cabin you will need to follow Mt. Massive Rules and Regulations governing Land Use. These rules, published on the website or available at the Clubhouse, include submitting a Land Use Application to the Land Use Committee for their approval, **prior** to starting construction. The rules state "**A PERMIT IS REQUIRED FOR THE CONSTRUCTION OR INSTALLATION OF NEW CABINS, OUT BUILDINGS, ADDITIONS TO PRESENT CABINS, OR CONSTRUCTION OF SEPTIC SYSTEMS, FENCES, ANTENNAS, FLAGPOLES, SIGNS, PARKING AREAS, ROADS, CONCRETE, OR ANY DISTURBANCE OF THE LAND**". If there is a question about whether or not you need to submit an application, or to submit an application, please call Land Use Committee

members, Pat Jones at (719) 293-1898, Janice Good at (719) 207-1596, Brent Groenke at (719) 293-5441.

IS YOUR CABIN TITLED PROPERLY?: The Lake County Assessor wants to remind Club Members that when they transfer their cabin and membership to a new owner, to an heir or to a trust, they will also want to change the title to their cabin by deeding it to the appropriate entity. If you have recently acquired a membership and cabin or put your membership and cabin into a trust, be sure to record the appropriate document (ie. a "Quit Claim Deed" or "Bill of Sale") with the Lake County Clerk and Recorder so that the title to your cabin matches how you want your membership titled. This will prevent Lake County Tax notices being mailed to the wrong address and eliminate a lot of headaches for you down the road. Simply filling out a Mount Massive Lakes "Transfer Form" will not officially transfer the cabin into your name.

FOR SALE LIST: Is no longer part of the "Troutline" but will be emailed along with each Troutline. Each time there is a change in the "memberships for sale" list the new list will be sent to the membership via e-mail. Please contact Shaun Mulligan (303-513-0624) if you wish to list a membership or other items for sale.
